BIOL4265: test form 2

Name: Exercise #:
Surname: emc2 topic:
Student ID: title of emc2 publication:

Instructions
It is a 1 page <u>maximum</u> with an 11point font and current default margins.

Question
3. Please provide a reverse engineered solution set:
(a) list solutions beginning with the most evident in descending relevance order (exactly like you did every practice day),
(b) propose and explain the rers that is most relevant <u>based on research</u>,
(c) cite the research you did to design your rers by providing the citation to two solution papers and include just a single sentence for each explaining why you selected that paper as evidence.
                                                                              /20 points

Commercial
Please prep a 1-2 minute radio or video commercial 'selling' the solution OR describing the challenge to a general audience OR prep a scientific comic (individually or with a partner).
See marking key on website. **/20 points**

Partner name and surname:

LINK to the commercial (YouTube, Google drive, or figshare.com):

[Paste link here]

Feel free to describe your inspiration and resources for the commerical or comic here is in the 'description box on YouTube or fighare.com.

Q3.
